### Profile

Experienced IT professional with over 3 years of industry experience, specializing in frontend development. Proficient in writing clean and efficient code, creating responsive designs, and developing complex solutions. Passionate about staying up-to-date with the latest technologies and continuously expanding knowledge. Committed to delivering high-quality work and contributing to the success of digital projects.

### Languages

English (Advanced) • German (Beginner)

### Education

**Bachelor Degree/Faculty of Engineering/Mechanical Engineering**  
Ankara Yildirim Beyazıt University

03/2017 – 06/2021  
Ankara, Turkey

**Frontend Developer Bootcamp**  
Clarusway

06/2022 – 02/2023

### Professional Experience

**Cybersoft**  
Frontend Developer

12/2022 – present  
Ankara, Turkey

During my extensive software education, which covered various aspects such as web page development, product design, and UX/UI design, I had the opportunity to join CyberSoft as an Frontend Developer. At CyberSoft, I actively participated in tasks involving the updating of government websites, the addition of new projects, and the development of a mobile app. Furthermore, I acquired practical experience in SQL, further enhancing my proficiency in database management.

**Anicolor**  
Mechanical Engineer

08/2021 – 11/2021  
Aveiro, Portugal

I have learned important things such as installing new machines, adjusting, errors that may occur, making important calculations in drawing programs.

## Skills

Javascript (Experienced)

React.Js (Experienced)

## Courses

Clarusway HTML-CSS Course Certificate [↗](#)

Clarusway JavaScript Course Certificate [↗](#)

Clarusway React Course Certificate [↗](#)

## Projects

### Support Management System

01/2023 – 06/2023

*Türkiye İhracatçılar Meclisi*

I made frontend developments of support management systems affiliated to the Ministry of Commerce using HTML, CSS and Javascript.

### Aksaray University Map

08/2023 – present

*Running and cycling route mapping*

In the project carried out to create running and cycling paths, resting and visiting places of the university and the city, I took part in the design and creation of the site, as well as the details and filtering on the mapping. I did these operations using Angular, and I have gained experience in this field as well.

### Vultus

*React Native Project*

Vultus keeps the location, photo and name of any place you've been or that you remember going, preventing it from being deleted from your phone, even if it's not from your memory.

Tech Stack: JavaScript, React, Context, RESTful API, API, CSS, SQLite
